

ORCID

# ORCID in Israel

**Dr. Sigal Lahav Scher, MALMAD/IUCN**

ORCID Israel Workshop  
September 12, 2022

# Today's Objectives & Agenda

## Importance, Automation & Future plans

- **ORCID role in the research eco-system**
  - Dr. Paloma Marín-Arraiza, ORCID
- **Pure-ORCID integrations**
  - Margarida Vaz de Brito, Elsevier
- **Research funders and ORCID - Benefits and plans**
  - Dror Berger, IUCC / Rebecca Barasche, ISF / Haim Katz, BARD
- **Making the most of ORCID**
  - Dr. Paloma Marín-Arraiza, ORCID

# The Israeli ORCID consortium

- Established in July 2018
- Includes **all** Israeli public Universities
- All members established integrations for their researchers
- An infrastructure for the national CRIS
  - Enables automation in data harvesting
  - Enables automatic deduplication of researchers

# Benefits for all ORCID users in Israel

- Sign In Using ORCID Credentials
- Public API (Read **only** for public data)
- Local guidance & limited support
- Local workshops
- ORCID resources & webinars

Three session times:  
29 Sept. @ 14:00 UTC+1 & 16:00 UTC-4 | 30 Sept. @ 10:00 UTC+8

## I'm a Member, Now What?!

### The ORCID Member Portal

Get the most out of your membership and increase the efficacy of your organization's ORCID adoption.

A graphic for the ORCID Member Portal. It features a central illustration of a woman's face with dark hair, wearing a blue top and a black jacket. She is surrounded by several circular icons: a question mark, a building, 'iD', a globe, a gear, a person with a speech bubble, and an upward-pointing arrow. The background is dark blue with a large orange circle behind the woman's head.

# ORCID consortium members' benefits

- Reduced membership costs
- Various integration options
  - Local integrations (HR, CMS, LMS)
  - ORCID enabled systems (such as Pure)
  - Affiliation Manager
- Write data and read public & restricted data
  - When assertions are added to ORCID records by member organizations, they are vouching for the fact that the record holder is (or was) indeed affiliated with the organization, which results in validated data and adds value for both researchers and their organizations.
- Enhanced Support
  - Including local contacts (MALMAD)
- Detailed reports
  - Monthly and on-demand
